

Judaism

November 2021

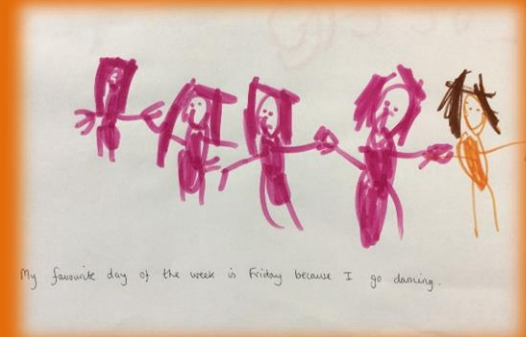

Look: We talked about the special things which we do during the week and special times of year which we share. We decided on our favourite day. Everybody had a different special day but we knew that Sunday is a special day for Christians and Saturday is a special day for Jewish people.

My favourite day
is Friday because
I go shopping.

My favourite day
is Wednesday
because I go to
my Grandma's
house.

My favourite day
is Friday because
I go dancing.

Discover: We looked at some very special objects which are precious to Jewish people. We listened to, and then acted the story of Hannukah, building our own representations of the Temple using lots of different resources. We coloured in pictures of Jewish families celebrating Hannukah and outlines of some of the precious objects.

Respect: We learned that the Menorah is a very special object for Jewish people because it reminds them that the oil in the Temple burned for a very long time! We created our own representations of the Menorah. We looked at a picture of some children and identified the objects verbally, then wrote a phrase to show our understanding.

We lit the menorah.

We light the menorah.

We light the menorah.
We eat special food.
We play games.
